ROAD-TAX LAW.

As the Fiscal court is discussing the road-tax question, the law from which the court derives its authority to levy a tax becomes a matter of moment. It is found in the General Statutes and is as follows:

SECTION 4307. The fiscal court shall have full power and authority to levy an ad valorem tax for road and bridge purposes of not exceeding twenty-five cents per year on each one hundred dollars worth of property assessed for state and county taxation, and also a per capita tax of not exceeding one dollar on each male citizen of the county, liable to work on roads, between eighteen and fifty years of age. Said tax to be collected in the same manner, by the same officers, and under the same obligations as other county revenue is collected, and the fund shall be designated as the "Road and Bridge Fund."

GORDON AND GRAYOT

Have No Opposition and Declared
The Nominees.

Judge J. F. Gordon, of Madisonville, and John L. Grayot of Smithland, will have no opposition for the Democratic nomination for the offices of circuit judge and commonwealth's attorney, respectively, of this judicial district.

The committee met sometime since and called a legalized primary election to be held May 9, for the purpose of making nominations for these offices, with the proviso that if only one candidate had announced for each position on April 1st the primary would be called off and the nominee declared by the committee in convention. The first of April has come and Gordon and Grayot were the only announced candidates.

FORTY ORPHANS

Placed in Good Homes in this
County.

Superintendent J. W. Gardner, of the Kentucky Children's Home has placed forty homeless children in good families in this county during the past month. He arrived here Wednesday with a number of little fellows and had no trouble in securing good homes. This was his fourth trip to Marion. More about the good work of the society will be found elsewhere in this issue.

THANKS THE PEOPLE.

To the people of Marion, Ky., for their hearty co-operation and interest they have taken in my work for the Kentucky Children's Home Society, Louisville, Ky., also for their liberal contribution. May God's blessings rest upon the town in my prayer.

J. W. GARDNER,
Dist. Supt.

W. J. Stone Sued on Notes.

C. W. Finn, assignee of the German-American Security company at Louisville has sued S. J. Snook and W. J. Stone, of Kuttawa, to secure the collection of four notes given during March, April, May and June of 1901, with interest at 6 per cent. from their dates, and subject to a credit of \$18. W. J. Stone was a candidate for the Democratic nomination against Wm. Goebel and P. Wat. Hardin in 1899. Mr. Snook is his son-in-law.

APRIL 29TH.

The Fiscal Court Will Convene
to Discuss the Road Problem.

Committee to See the State Board
Equalization.

The Fiscal Court found that it was unable to give the road problem proper consideration at the regular term last week, and adjourned to meet on Wednesday April 29th for discussing and passing upon the question. The brief discussion showed that three of the eight justices—Woodall, Dean and Hard, were for working the roads by taxation. The other five did not express themselves explicitly on the point. In the discussion, it was stated that the records show that about \$7,000 was appropriated last year for plows and teams and other work on the roads, and it was argued, that to this extent the roads were already worked by taxation, and an additional tax of 15 or 20 cents on the \$100 would create a fund sufficient to work the roads equally as good as they are now worked.

Dr. E. E. Newcom was allowed \$111.20 for smallpox services and poor-house practice.

Jas. Cleghorn, Eli Flanary, Lafayette Staughter, Fred Imboden were released from payment of poll tax.

Dr. T. A. Frazier allowed \$23.00 for jail practice.

Dr. W. J. J. Paris allowed \$21.00 for services as health officer.

A. Towery and T. P. Hard were appointed to investigate and make necessary repairs on public road near T. C. Campbell's.

The former order of the court fixing the salaries of the county officers for "one year" was amended fixing the salaries for "four years." Under this order the county judge gets a salary of \$625; county attorney \$550; the school superintendent 10 cents on each pupil, which aggregates about \$550 annually.

Messrs. Aaron Towery, Geo. T. Belt and Carl Henderson were appointed and empowered to appear before the State Board of Equalization on April 17th, and make

an effort to prevent the adding of the 15 per cent raise to the land and town lots of the county, and \$100 was appropriated for the expenses of the trip.

The sum of \$1000 was appropriated to build new bridge across Dry Fork creek at site of old bridge. S. Woodall, T. P. Hard and A. Towery were appointed commissioners to have bridge built.

It was ordered that \$200.00 be appropriated for building addition to jail, and Messrs. J. R. Postlethwaite and A. H. Travis were appointed to have said addition made.

W. B. Stenbridge was allowed \$6 for bridge lumber.

The following persons were allowed the sums named to aid in their support: Mary Burton, \$8; Amos Riley, \$8; Curtis Teer, \$12; Jack Hargraves, \$10; Elizabeth Gilbert, \$8; John Love, \$8; Mrs. Wm. Farley, \$10.

A. H. Travis, services rendered as jailer, \$200.50.

H. Koltinsky, supplies furnished, \$1.95.

B. W. Belt, lumber for culvert, \$2.50.

Liberty Lodge, house for holding election, \$6.00.

Union school, house for holding election, \$5.00.

The sum of \$137.50 was allowed for building a 30 foot span to the Milford bridge, and Mr. P. C. Moore and Judge Towery were appointed commissioners to have same built.

J. P. Pierce allowed \$38.18 for lumber for poor house and road.

W. H. Mayes allowed \$20.30 for lumber for road.

J. B. Kevil was allowed 25 per cent of the franchise tax collected.

The justices were allowed \$6.00 each for two days attendance upon court.

MRS. LYDDA McMICAN.

Sister Lydda McMican, mother of Rev. B. F. McMican, was born Dec. 22, 1837, died at her son's, Geo. McMican, in Missouri March 15, 1903.

She has been a devoted Christian for twenty-five years. She was a member of the Cumberland Presbyterian church at Marion, Ky. She had experienced one stroke of paralysis before, but this stroke was but the kiss of God's love to call her home.

She has entered into rest and beckons her loved ones home.

MAY 4TH.

Republicans Will Select a Nominee
for Circuit Clerk.

COMMITTEE WILL MAKE NOMINATION

The Republican County Committee met at the court house in this city Monday afternoon to arrange for the selection of a nominee for circuit clerk. The nomination will be made by the committee and Monday, May 4th, is the date upon which the committee will meet to select the nominee.

There are four candidates for the nomination. They are Messrs. Jos. C. Bourland, Charlie Moore, L. E. Guess and John Asher. Every candidate has a strong following and the race will be a warm one.

The following are the members of the county committee:

SUING FOR DIVORCE.

The St. Louis Globe-Democrat of Saturday morning says:

"Mrs. Minnie Leonard Cabanne yesterday filed suit in the circuit court for divorce from James Shepard Cabanne. The papers in the case were removed from the court house as soon as the case was filed. Mrs. Cabanne is the second daughter of Col. Sim Leonard, the well known Eddyville banker. She became the wife of Mr. Cabanne three years ago.

LATE DISPATCHES.

The decision of the Kentucky Court of Appeals in the case of Taylor vs. Beckham, that a public office is not property, has been cited by the Attorney General of Indiana to support the State in its effort to oust the sheriff of Sullivan county from office.

The Confederate Veteran's reunion at New Orleans may be boycotted by the labor unions of that city. The Committee on Music refused to request that only union bands be used in the parade, and announced its intention of hiring both union and non-union bands.

The proposed trip of Gov. Beckham, his staff and several hundred members of the State Guard to the dedicatory ceremonies of the St. Louis World's Fair, April 30, has been abandoned. The lack of funds to pay the expenses of the soldiers, and the rivalry between the various companies for the honor of making the trip are the causes assigned for the Governor's action.

NEWSPAPER FAME.

Your great man shines before the populace in vain—without the newspaper. He spread eagles the constitution in vain—without the newspaper. His scientific researches and achievements are vain—without the newspaper. His wireless telegraph would be an accomplished fact of small merit—without the newspaper. His moving sermons, rattling hell fire in the face of sinners, are vain—without the newspaper. His successes in every walk of life are vain—without the newspaper.

The newspaper is the fame maker of the age. Of course some of the fame is cheap, but it satisfies the living wearer of the cloak even though posterity may change it.—New York Press.

DOUBLE WEDDING.

Thursday evening two marriages were solemnized in the parlors of the New Richmond Hotel at Paducah. The contracting parties were Mr. Del Hardin, of this county, and Miss Mallie Robertson, of Lola, and Mr. W. B. Davidson, of this county, and Miss Maggie Sladon, of Lola. The couples returned home Friday. The young people are all well known.

NEWS OF THE WEEK.

The strike of Indianapolis tinners was ended in favor of the strikers.

Three persons killed and a hundred injured in labor disturbances in Russia.

Former Lieut. Gov. J. W. Bryan, died at his home in Covington of pneumonia.

Bruce Marcum was sold into servitude for six months for \$6.50 at public auction at Jackson, Ky.

The murder case against former Lieut. Gov. Tillman of South Carolina, was continued till July.

The Minnesota, the largest ship ever built in this country, will be launched at New London, Conn., April 16.

Two English war ships collided in the Mediterranean sea, and it will cost \$360,000 to repair the damage.

It is believed that Attorney General Clifton J. Pratt will shortly announce his candidacy for Governor.

Gov. Murphy, of New Jersey, vetoed an anti-cigarette bill, declaring that cigarettes do not hurt boys.

At Lexington James W. Bess, convicted of the murder of Mrs. Martin, was sentenced to be hanged on June 12.

All the candidates for Democratic nominations on the State ticket have paid their entrance fees except Judge R. J. Breckinridge.

A number of prominent persons connected with the effort to oust Miss Clara Barton from the Red Cross society were suspended from membership.

Booker T. Washington's wife was a guest of honor and a speaker at a meeting of the State Federation of Woman's Clubs at Dorchester, Mass.

The Attorney General of California rendered an official opinion declaring the use of the Bible in the public schools as unconstitutional.

During the first three months of this year there were organized in small towns in Kentucky seven new banks with an aggregate capital of \$140,000.

The Stratton will case was finally compromised and the action ratified by the court at Colorado Springs. Harry Stratton was paid \$350,000 according to the terms of the settlement, instead of the legacy of \$50,000.

COAL MINES

To be Owned and Operated by Union Labor Men.

Fort Smith, Ark., April 9.—The Labor Fuel company recently organized with a capital of \$75,000,000, is to be a gigantic coal mining company owned and controlled by union labor. J. Mallette, southwestern representative of the American Federation of Labor, is president. The directors and other officers are all labor men. The company has purchased 15,000 acres of coal lands and stock is being sold to members of the labor unions on installments if desired. Operations will soon be commenced.

We are prepared to furnish on short notice all kinds of rough lumber for building purposes, houses, fences, etc. Pierce, James & Corley. Call on J. P. Pierce.

The majority report of the Ways and Means Committee of the Arkansas House of Representatives sustains certain charges against Gov. Davis, the most important being the misuse of contingent funds. If the report is accepted by the Legislature impeachment proceedings may follow.

Indiana miners will send a representative to the Evansville district to ask the people not to use coal from Hopkins county, Ky., which is mined by nonunion labor. The Indiana operators contend that the unions should organize the Hopkins county district on this account.

Dispatches from Paris state that the debate in the chamber of deputies which resulted by a vote of 281 to 228 in the invalidation of the election of the National Deputy Syveton, is likely also to lead to the reopening of the Dreyfus case and perhaps to the rehabilitation of the former prisoner of Devil's Island.

Nineteen persons were killed and at least forty injured by a tornado which swept through Ambama and Arkansas. Ten persons were killed and twenty injured at Hopewell, Ala. Nine were killed and sixteen injured at three small towns in Arkansas. The death toll may be swelled by later reports, as the communities in the path of the storm are isolated. The damage to property was great.

The annual report of the United States Steel corporation for the year ending December 31, 1902, has been published. It shows that the gross receipts were over \$550,000,000 and the net earnings over \$133,000,000. The report for the first quarter of 1903 shows a decrease in receipts as compared with the same period last year. The decrease is said to be largely due to the congestion of traffic holding back deliveries.

The Secretary of Agriculture has secured in the grounds of the St. Louis Exposition, a plot of ground ten acres in extent, in which it is proposed to lay off a miniature reproduction of the United States. The boundaries and physical characteristics of each state will be plainly shown, and in each state will be grown the crops native to the section. For this purpose the more tropical plants will be grown in hot houses and set out as occasion demands. At a single glance the wheat fields of the Northwest, the cotton and tobacco fields of the South, the peach orchards of Delaware, and the orange groves of California, can be viewed. Even the pineapple groves of Florida will be reproduced.

Adlai E. Stevenson Injured.

Adlai E. Stevenson, former vice president of the United States, lost his hair and mustache and received painful burns in the face, head and hands while trying to extinguish a fire in his home Wednesday. The fire started in a bedroom. When he rushed into the room the curtains were ablaze. Without calling for aid Mr. Stevenson attacked the flames. In a twinkling the hair sizzled from the top of his head. As he sought to save his hair the fire seized his mustache and blistered his face. He retreated before his clothes caught. The damage to the house is \$1,000.

DIVORCE STATISTICS.

There are now 51,538 divorced people in the United States, of whom 32,205 are women and 18,334 are men. The reason for such an excess of women is explained on the theory that divorced men are more apt to remarry than divorced women.

GOEBEL MONUMENT.

The Design Selected—To Cost \$15,000.

The Goebel Monument Commission, at a session held in Frankfort, expressed a preference for a design for a monument presented by Adams & Sons, of Lexington, and the contract for its erection will go to that firm. A sub-committee of the commission, composed of Senator James B. McCreary, Judge Lewis McQuown, of Bowling Green, and Mr. Arthur Goebel, of Covington, was delegated the work of arranging with the contractors as to the dimensions of the monument and all other details, and to draw up a contract, subject to approval of the commission.

The monument is to be of Barre granite and bronze, and is to be about thirty feet in height. This height includes a ten-foot bronze figure of the dead statesman, in the attitude of speaking. This statue is to be executed by Signor Morretti, a noted sculptor of New York City. The monument proper is to be elevated on a granite base forming steps leading up to it on all sides. It is to be square. On the front side is to be a life-size bronze figure of a woman, representing grief, and above her the inscription. On the side to the right and left of this figure are tablets for inscriptions, these tablets inclosed in bronze laurel wreaths. On the fourth side of the square is to be a large bronze medallion of the great seal of the Commonwealth. The monument is to cost \$15,000.

ELKTON MAN SOAKED.

Mr. Ben D. Johnson, of Elkton, was worked for \$5,000 on the gold brick graft last Friday.

Two strangers were seen here on that day and were heard several times inquiring for Mr. Johnson. They claimed to represent some Western gold mining company, and were out selling what gold they had so that they might buy new machinery. They put up such a tale that Mr. Johnson thought he was getting a good thing out of it. He paid them \$5,000 for what seemed to be \$14,000 worth of gold.

Mr. Johnson received a letter from them mailed at Paducah, Ky., saying that the block of metal was brass, and advising him for his own sake to keep the whole affair a secret.

CHRISTIANS MASSACRED.

Horror and consternation have been aroused at London by a report from Sofia that the christian population of Ohrida, the scene of a recent Bulgarian outbreak, have been massacred by the Albanians. Details of the massacre are as yet meager. It is said to have taken place at night, and men, women and children were aroused from their sleep and ruthlessly slain. There is great anxiety in London over the news.

The christian population of the city is said to number eleven thousand souls.

Dates for Hearing Committees.

The state board of equalization has notified the county judges in the First appellate district of the dates when the board will hear the committees appointed on the equalizing of the value of property subject to taxation. They will hear three committees daily, beginning on Tuesday, April 14.

Henderson, Carlisle and Trigg will be heard on April 15; Lyon and Marshall on April 16; and Fulton, Hopkins and Crittenden April 17.

CEN. LEW WALLACE.

Attacks Grant in His Address at Shiloh.

Gen. Lew Wallace of Indiana, in his address at the dedication of the Indiana monuments on Shiloh battlefield, said:

"Did you ever hear of an army fighting a battle without a commander? That was the case of the army of the Tennessee on the first day here. The five divisions had each its chief, but none was in general command. Gen. Grant was in command of the army, but he had his headquarters at Savannah, ten miles away, and when he arrived the battle was beyond his control. The Confederate army left Corinth Thursday afternoon and moved in the Second corps to attack Grant at Shiloh.

"How was it possible to move the three great army corps into as many lines of battle, each behind the other, within two miles of Shiloh church, without making their presence known?

"Were there any union pickets out? How far out could they have been? Had they no eyes, no ears? It would seem not. At 5 o'clock Sunday morning neither General Grant at Savannah, nor one of his division commanders on the field, knew of the danger of the other or suspected it. No precaution was taken against surprise, nor was preparation of any kind taken for battle. Never did an army receive an attack under so many serious disadvantages. Nelson did not save the Army of Tennessee by crossing the river. The chances of Confederate victory went out with the passing of the great soul of Albert S. Johnston.

"After the battle was fought and the details published it became of importance to gentlemen connected with the army in high places to have a scapegoat, and some of you may remember that I was the unfortunate elected for that purpose."

LITTLE HELPS.

For patching rents or work places with the sewing machine, cut out a patch large enough to more than cover the place in need of repairs. Baste it under the place so that the threads will run with the thread of the thing to be patched. Stitch a row all around the patch an inch from the edge; next turn under the raw edge and stitch it down; reverse the work and cut the thin or torn piece out, leaving a three fourths inch margin next to the first row of stitching; cut half through the corners, turn under the edge and stitch down.

A table is set with a view to convenience as well as elegance. At a simple family table there are only two forks, two knives and a spoon. A knife is used for cutting things that are not manageable by a fork, and for no other purpose. Pies, cake, and some kinds of fish entrees with sauce, etc., require the fork only. A good rule is to avoid the use of the knife as much as possible.

To clean a mackintosh spread it out on a table and scrub it all over with a stiff brush, using cold soft water and yellow soap; when all dirt is off, dip the mackintosh through several lots of clean water; do not wring, but shake well and hang out to dry in the open air if possible, and do not allow it to freeze while wet. If the weather is too cold let it hang in a cool room, but on no account put it near the fire. Hot water must never be used, and if there are any bad stains or grease marks that will not yield to the soap alone, rub a little turpentine on them.—Globe-Democrat.

Everything from gloves to ready made clothing is made in "sizes" but few know the measurement of them. In coats a size is an inch; in underwear two inches; in socks an inch; in a collar, half an inch; in shoes, one-sixth of an inch; in trousers, one inch; in gloves, one fourth inch; in hats, one eighth inch.

a candidate for Representative from Crittenden and Livingston counties in the next General Assembly of Kentucky, subject to the action of the Democratic party.

FOR STATE TREASURER

We are authorized to announce
HENRY BOSWORTH

of Fayette county, a candidate for State Treasurer, subject to the Democratic Primary, May 9, 1933. He will appreciate your vote and influence.

SUPERINTENDENT OF PUBLIC INSTRUCTION.

We are authorized to announce
BEN WATT,

a candidate for Superintendent of Public Instruction, subject to the action of the Democratic primary, May 9th, 1933.

FOR CIRCUIT COURT CLERK.

We are authorized to announce
JOSEPH C. BOURLAND,

a candidate for the Republican nomination for Circuit Court Clerk of Crittenden county.

We are authorized to announce
CHARLES A. MOORE,

a candidate for the Republican nomination of Circuit Court Clerk of Crittenden county.

This year will be Mr. Bryan's "second summer." If he can retain the leadership of his party without the prestige of a nomination, and with his old friends fully understanding that he will not be the standard-bearer, his enemies will stand convinced that he is an able man, possessing remarkable personality.

The spirit of pugnacity shown by Kentucky Democrats does not augur well for harmony in the national convention next year.

A pawpaw ridge subscriber writes us that he has sixteen children in his home and "nary one of them come from an orphan's asylum, either."

The majorities of Carter Harrison and Tom Johnson were comfortable enough for local purposes but as presidential boomers they are distinctive failures.

It's a pity that we can not preserve a few sections of some of the public roads as they emerged from winter quarters, that future generations might have a good idea of the hardships their ancestors had to endure.

A Morristown, N. J., man claims to have evolved a hen that lays two eggs a day. Well, what of it! With a drake that lays two eggs while asleep at night, Crittenden has no very high opinion of a hen that can't do better in a whole spring day.

The three candidates for governor are now on the stump; two of them "going after" the other hammer-and-tong style, and the other is demonstrating his ability and showing his willingness not only to take care of himself but to do some scientific boxing, too.

As Jack Chinn lost one of his pistols in Cincinnati he might get a model for a new one from one of the twelve inch guns of the monitor Arkansas as she touches Kentucky shore this week, or he might borrow one of those guns for temporary use.

Two attendants of the insane asylum at Lakeland were, upon their own confession in court, fined for cruelty to the inmates of the asylum. Such an offense should be made a felony, punishable by confinement in the penitentiary for a period of not less than five years.

The United States circuit court of appeals at St. Paul declared that the consolidation of the Northern Pacific and Great Northern railroads is unlawful, because operating as separate roads they are competitive lines, while the merger destroyed this competition and is in restraint of trade and therefore unlawful. If this decision is upheld by the Supreme court of the United States, the power of unlimited capital to destroy competition and control trade will be curtailed to an effective extent. While the decision is attracting wide attention, it should be a source of pride to Kentuckians to call to mind the fact that the principle involved in the decision was enunciated in the formation of our present State constitution, and made operative by an executive and sustained by the State courts a number of years ago.

OFFICERS ELECTED.

Stockholders of Marion Mineral Company Hold Annual Election.

The stockholders of the Marion Mineral company held their annual election yesterday. The meeting of the stockholders was held in the office of the company in this city.

Mr R. E. Cooper, of Hopkinsville, was elected president, succeeding Mr. L. H. James, of this city; Mr. O. L. Bass, of Pensacola Fla., succeeds Mr. Sam Gugenheim, of this place, as vice president; Mr. R. C. Walker was re-elected secretary and treasurer.

A BIG DEAL.

J. A. Stegar Purchases the Old and New Marion.

It is currently reported on good authority that Mr. Jas. A. Stegar of Princeton has purchased from Mr. A. J. Pickens the two brick buildings known as the New Marion Hotel, and the old hotel building, and the lot south of the old hotel. The price paid is reported to be \$10,000.

If Superintendent Gardner, of the Kentucky Orphan's Society, has undertaken to supply the demand for children in this county, he is likely to be advertising for orphans pretty soon. Three times he has come in with a supply and it is exhausted before most people find out he is here. Are our home industries on a decline?

There ought to be 2500 road hands in this county; if they put in six days each on the roads their work would equal 15,000 days each year; and a good, square, solid days work is equal to \$1.00. Is this \$15,000 worth of labor put on our public roads annually, to say nothing of an extra thousand or two spent for teams for the same purpose? If this labor was actually expended, and put where it would "hit the spot," a good many of the jagged edges would be worn off of the road question. Overseers put it there once, just for luck.

Somebody has mischievously said that "Salem has it in for" Marion: we will not accept the ipse dixit of anybody on this proposition. The two towns have been too warm friends through the seven long, lean years not to remain friends through the seven longer fat years that are now brilliantly dawning upon both places. Come up, boys, and break bread with us and break a stick over our heads if you don't find our hearts warm; or invite us down, and see if we can not be sociable, convivial and generous, without a shadow of selfishness to mar our pleasure or blight your regard for us.

ATTORNEY MAY

Of Smithland Dies from a Blow Inflicted by a Boy.

City Attorney Clarence May died at Smithland Tuesday as a result, it is alleged, from a blow on the head inflicted by Alfred Mitchell, a young boy, with whom May had trouble several weeks ago. May accused the boy of stealing his dog, and was preparing to whip him when the boy struck him with a brick. The wound did not seem to be serious at first. The boy was tried in the police court and acquitted on a plea of self-defense. Shortly afterward May became ill, blood was clotted on the brain and death resulted.

Mr. May was twenty-nine years old and leaves a wife and several children. He was very popular throughout the county. The Mitchell boy is a nephew of sheriff Pat Bush. The matter may be investigated by the grand jury. Public sentiment is divided.

THE WORK

The Kentucky Children's Home Society is Doing Here and Elsewhere.

Help the helpless. This is what the Kentucky Children's Home Society is doing. We are not an orphan's home and yet we are. We are doing what no other organization in the State is doing; we are not simply helping the orphans, as many others are nobly doing, but we are doing more, we are extending the hand of sympathy and help to the helpless, neglected and mistreated children who are not orphans. Many of these would be in a far better condition if they were orphans. Some of these have the most vicious parents and the most forbidding surroundings. To remain in their present circumstances is to grow up ignorant, wicked and miserable, to be a menace and a curse to society, to multiply crime, lawlessness and litigation and increase the expense of local government, and finally to enter eternity from a life of sin and shame. We have inaugurated an aggressive movement to save this class. Being strictly non-sectarian and having no connection societies everybody can work with us.

We think we have solved the old perplexing social problem of extending efficient help to every class of the most helpless children. It is in what might well be chosen as our motto: "The individual child for the individual home." We do not labor to group our children in a general home,

but to find the home as we find the child. In the providence of God there are many childless homes and on the other hand there are many homeless children, and many poor helpless ones with but nominal homes. We are striving to form a connection between the childless home and the homeless child and thus prove a blessing to both. Since we do not group our children in a general home, the expense of placing them is comparatively small.

I have placed 158 boys and girls in good homes since last June and 40 of them are in Crittenden county; and may God's richest blessings rest upon the homes of these noble hearted men and women that have opened their hearts and homes to receive these little homeless children, and not only to raise them up for this world but for the world to come, and may the dark shadow of death never sorrow their cheek nor sadness dim their eyes, and may this world ever be to them an uninterrupted plain of joy, friendship, happiness and love.

J. W. GARDNER,
Dist. Sup.

P. S. Any one wishing a little boy or girl to raise can call on Mr. T. H. Cochran, Marion, Ky.

DYCSBURG.

The partial eclipse of the moon was especially noticeable at Dycusburg the evening of the 11th.

The generous waters of the Cumberland have yielded up many a fish in the last few days. Edna Ralston sold at one time 350 lb. to Fred Ramago, who distributed them among the inland towns. Bud Wadlington was also fortunate in casting his net.

Miss Nellie Clifton is in Marion. Her nephew, Frankie Necon, drove to the tank for passion on the I. C. railroad Thursday.

Frank Banton, of Smithland, is visiting relatives in this vicinity and recuperating from an attack of fever. His little son Aubrey accompanied him.

Mrs. Lula Crits and Ben Martin are visiting in this community.

J. A. Graves sold his saddle horse to Rad McKinney this week. Steamer Richardson was 15 hours late on her down trip.

Large quantities of railroad ties are being towed out of the Cumberland.

Mrs. Lizzie Barriek was a guest of Mrs. Dancie Brown Friday.

Tom Martin, of Paducah, is the guest of his brother, Ike Martin, our popular ferryman.

Many heavily loaded wagons have been unloaded at the Dycusburg stannery this week.

A little daughter of Mrs. Lula Banton is sick.

The Cumberland seems to have become the medium of transportation for wheat between St. Louis and Nashville. Str. City of Calhoun passed up Sunday loaded with wheat.

Quarterly meeting was held at Grove Chapel church, on Grand River circuit Sunday. Several Dycusburg people attended.

Mrs. Aaron Charles has been quite ill with lagrippe.

Mr. and Mrs. Robert Miles, of Kelsey visited relatives here Sunday.

Luther Pace, of New Salem was in Dycusburg Sunday.

STARR.

Hogs are scarce and prices high. W. A. Woodall talks of shipping his tobacco.

Singing at W. C. Crayne's Saturday night.

We delivered our little "batch" of tobacco to T. E. Elgin of Covington and were well pleased with his weights and fair treatment.

Prayer meeting at Lone Star every Saturday night.

Jasper Turley has moved to J. H. Turley's farm.

Who is going to be the nominee for circuit clerk, is the question.

Reed Phillips has been on the sick list.

Henry Wilson and family visited here Sunday.

Rev. Woodruff met his regular appointment here Saturday and Sunday.

Mrs. Belle Andrews will leave for Yellville, Ark., to make that place her future home.

REPUBLICAN POLITICS.

Much Opposition to Pratt-Wilson the Administration Candidate.

George W. Long has written to C. M. Barnett, chairman of the Republican State Central Committee, saying that he will not under any circumstances be a candidate for the Republican nomination for Governor. Mr. Long is now in Indian Territory prospecting, with a view to investing in real estate.

Senator Deboe hopes to induce Judge Breathitt, of Christian, to make the race.

Clifton J. Pratt will announce his candidacy for the gubernatorial nomination in a few days. Mr. Augustus E. Wilson will receive the support of the Administration forces in the state. His friends have already begun to organize in his interest.

Chairman Barnett will call a meeting of the State Committee about May 15, and a call for a state convention at any time Mr. Wilson's friends desire will be issued.

John W. Yerkes seems to have succeeded admirably in stirring up the opposition to Clifton J. Pratt, who seeks the Republican nomination for Governor of Kentucky. Mr. Yerkes's recent trip to this state was not so much to look into the revenue service as to fix his political fences and to head off Pratt.

Spring and Summer Fashions.

Flower effects are the chief distinction of the sheer Summer fabrics. The Louisiana silks have acquired such softness and grace that they extensively used for the all around summer gown, and the Habutal and Tokio varieties exhibit an embroidered elaboration that makes them appropriate for dressy wear, taffetas are now procurable in soft, rustles quality.

The chiffons approach the silks in wearing quality, being much heavier than their predecessors.

Canvas is assuming great importance in the realm of Spring frocks and coats; it is used as cloth, with strappings, stitchings, etc.

Basket weave cotton chevrons, madras and mercerized cottons, offer modish suggestions for the shirt-waist suit, and the smartest shirt waists are made of mercerized fabrics.

Nearly every gown, whether made of a soft woolen or a sheer wash fabric, is characterized by shirring.

The reign of lace curtains, soft and filmy Tenerife and Mexican laces are the novelties of the season.

The new braids, which will be used in profusion, are soft and pliable, and well suited to forming designs on the gown, and the new buttons, glistening with colored stones, and enamel, are examples of the highest art of the jeweler. —From The Delinicator for May.

OUTLOOK FOR WHEAT.

The Best in Many Years—Kentucky Crop Report.

The outlook for wheat in Kentucky is the best that has been for years, according to Major Hersey of the Louisville weather bureau.

Tobacco beds were sown very late. The early beds are just beginning to come up. February rains and storms in the early part of March delayed the tobacco crop's growth.

The grass is two weeks ahead of usual condition of April 1.

It has developed that the severe weather in February killed part of the peach crop. Other fruit is in fair condition.

Farm work is late, but is progressing. Stock is in a fair condition.

"Altogether," said Major Hersey, "conditions are propitious, and the farmers have not much cause for complaint."

COMMONER PARAGRAPHS.

It will be noticed that there is nothing in the strike commission's report to prevent the coal barons from adding that 10 per cent. increase to the price of the coal.

One of Mr. Cleveland's worshippers declares that the popularity of the ex-President is "unbounded." This is palpably false. It is bounded on the South, at least, by Henry Watterson.

General Simon Bolivar Buckner is taking a very pessimistic view of the democratic outlook. However, it has been quite a while since the General looked at the democratic situation through democratic spectacles.

The ancients knew some things that the present generation has not learned. The ancients knew how to turn the floods in their rivers to good advantage. So far, this generation has "improved" its rivers until they are positive menaces to life and property.

A delegation of Virginia republicans went down to Washington recently and warned the president that that state would go democratic if he refused to give some patronage to the state. They will probably be able to carry out a threat of that kind easier than a promise.

Mr. Bryan's remark about the narrow escape he made from naming a child after Cleveland has brought out the information that one democratic father who named his son after Cleveland changed it when Cleveland went over to the Republican party, and now a Kentucky democrat reports that he is going to try to get his boy's name — Grover — changed and he is exceedingly thankful that he did not take any more of the name. This shows how risky it is to name a child after a public man while the man is alive.

Child Makes a Discovery.

Carl Jones, a child of Mr. J. L. Jones, a saloon keeper at Kuttawa, while hunting for bottles and anything else he could find, found in an old dismantled building back of W. A. Gresham's grocery, the inner boxing or lining of a safe, and with it the drawer usually used for the deposit of cash, and valuable papers, and not knowing what it was, showed it to some one who opened the drawer and found therein a lot of stamps, revenue stamps, receipts and package containing notes made to W. A. Gresham, to the amount of \$300, besides other valuable papers. The find was reported to Mr. Gresham and proved to be the inner lining of his safe, which was blown open by safe blowers some time last June.

APRIL

An Important Month in the History of the United States.

"Did you know that the month of April has played a more conspicuous part in American history than any other month in the year?" asked a man who is fond of things historical, in the New Orleans Times-Democrat.

"From the way I look at the events involved April is the most important of all the months, and I have often wondered why the American people show so much indifference to the fact. Why when you come to think of it, the Fourth of July, while surely important enough, is not quite so momentous in the annals of American history as some other day one might mention. April has been the one month of the year which has settled the great problems with which the American people have had to deal.

"Suppose we glance at the record for a moment: The war of the Revolution began April 11, 1775. Coming on down we find the Sabine disturbance, involving the southwestern frontier, Louisiana, Arkansas and Texas, and which began in April, 1836, running through to June of the next year. The Mexican war began April 24, 1846. The Yuma expedition into California ended April, 1852, having begun in December the year previous. The Gila expedition into Mexico was launched April 16, 1857. The Colorado river expedition in California ended April 28, 1859. The Pecos expedition into Texas was launched April 16, 1859. There was the war of the Rebellion, which started on April 19, 1861. Hostilities actually began when Fort Sumpter was fired upon, April 11, 1861. The Ute expedition in Colorado began April 4, 1878. The Spanish-American war began April 21, 1898, and ended April 11, 1899.

"These are some of the most important things which have taken place in the month of April, and many of the events have been of deep importance from the standpoint of Americans. What reason can you assign for conspicuous part April has played in the history of America? Do men feel more like fighting in April than in the other months of the year? Is the spirit of war and revolution influenced by the rising of the sap? I do not know, but there must be some good reason for the happenings of these great things— wars, expeditions, explorations, adventures and events of this sort in the month of April. At any rate, they've happened in April, and it would be unreasonable and absurd to assume that these things are due to haphazard—that they are mere coincidences. April cannot be explained out of her rightful inheritance among the more important months in American history.

Ancient Wireless Telegraphy.

Those who contend that there is nothing new under the sun will be interested in the announcement that Marconi's system of wireless telegraphy has a rival which is many centuries old. According to a writer in the Chicago-Record Herald, Rev. C. A. Rideout, a missionary of the African Methodist Episcopal church of America, who returned to this country lately on a furlough after four years' labor among the native tribe of South Africa in the territory lying west of Natal, thus describes this remarkable system: "A large gourd such as those grown in many parts of the United States, is hollowed out and thoroughly dried. Then the skin is stretched and dried by a native process which makes it as hard and as thin as parchment, is stretched across the hollow of the gourd. It is beaten with a padded drumstick and gives forth a sound which can be heard distinctly at a distance of from five to eight miles. The Basuto country is mountainous and the villages lie along the mountain sides and in little valleys or glens, seldom being at a high elevation."

"A Summer Fairyland."

To those who are planning a summer outing and seeking green fields and pastures new, some place where they can cast care aside and commune with primitive nature, where, though the sun shines ever brightly cooling breezes always blow and great heat is unknown, it is safely promised among the rocks and lakes of the Muskoka district, about 100 miles north of Toronto, situate in the Highlands of Ontario, 1000 feet above sea level, they will find enchantment.

Skeletons of Mound Builders.

In searching for archeological relics recently Prof. W. K. Morehead of Phillips Academy, Andover, Mass., unearthed ten complete skeletons, accompanied by various specimens of weapons, pottery, etc. The relics were found on the farm of James Willis, near Hopkintonville, and from the success met with there are probably hundreds of the graves. Prof. Morehead says the skeletons are undoubtedly those of an ancient race of mound builders. He will go to the Cumberland river and from there to the Ozark mountains.

The third trial of Jim Howard, for the murder of Gov. Goebel, is in progress at Frankfort. A jury was selected out of a special venire of 150 men from Woodford county.

Consumption

The only kind of consumption to fear is "neglected consumption."

People are learning that consumption is a curable disease. It is neglected consumption that is so often incurable.

At the faintest suspicion of consumption get a bottle of Scott's Emulsion and begin regular doses.

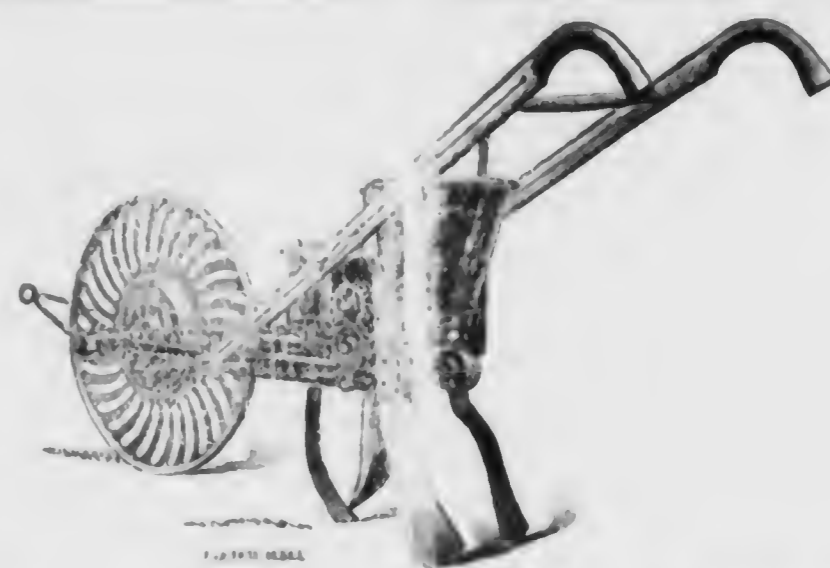

The use of Scott's Emulsion at once, has, in thousands of cases, turned the balance in favor of health.

Neglected consumption does not exist where Scott's Emulsion is.

Prompt use of Scott's Emulsion checks the disease while it can be checked.

ICE STOVES.

A New Invention for Cooling Rooms in Summer Time.

"Put some more ice in the stove we must keep cool," is likely to be an oft heard remark in the near future. Prof. Willis Moore, chief of the weather bureau, announces that his invention for cooling rooms will soon be put on the market, says a Washington dispatch.

Prof. Moore does not claim to have discovered a new force, but only to have utilized principles well known in physics. He calls his apparatus the "stove"—spell it backward and it is a reversed oven—a contrivance for cooling instead of heating. It resembles a stove, being a cylinder of copper or galvanized iron, with a door midway of its height.

Buy a medium sized stove and you have a stove six feet high and two feet in diameter. Put it in your bed room or office. Close all the doors and windows, save that one window near the stove is pulled down from the top a foot or two. Break up one hundred lbs. of ice to the size of the furnace and mix it in a tub with 150 pounds of salt. Shovel the mixture into the stove, open the pipe to let out the thawed water at the bottom, and in a short time your room will be at a comfortably cool temperature.

From the stove comes dry, clean washed air of the temperature of eighteen degrees Fahrenheit. A stove of this kind will cost about \$20, and with it you may cool a room 15x15 feet at a cost of \$60 to \$70 for a summer. The ice stoves may be had of various sizes.

WALKS WITHOUT CRUTCHES.

I was much afflicted with sciatica, writes Ed C. Nud, Iowa Falls, Sedgwick county, Kan., "going about on crutches and suffering a deal of pain. I was in doubt to try Ballard's Snow Liniment, which relieved me. I used three 50c bottles. It is the greatest liniment I ever used, have recommended it to a number of persons, all express themselves as being benefited by it. I now walk without crutches, as to perform a great deal of light labor on the farm." 25c, 50c and \$1.00 at Woods & Co.

TOBACCO SELLING SLOWLY.

There is more tobacco on the Paducah market than there has been for years. About 5,500 hogsheads have been received and only 1,200 have been sold. The Mayfield market is in about same condition. The trusts are not buying yet.

Vigorous Old Age

Paine's Celery Compound makes the old feel young, and cures their ills. It has added years of health and enjoyment to many a life. Use this great medicine regularly, and its invigorating powers will fill your declining years with health, strength, and happiness. Read what George F. Morse, 67 years old, writes:—

WELLS & RICHMOND CO.,
Gentlemen:—Just a word in favor of Paine's Celery Compound, hoping it may catch the eye of some afflicted person, and they may receive the same satisfactory benefit. Some 15 years ago, I had a combination of malaria, chills and fever, and grip, which continued for a year or more; meantime I lost in weight about 60 pounds, trying different medicines and doctors with unsatisfactory results. Paine's Celery Compound was recommended, and, after using a little I began to improve, gaining about a pound a week. In a year I had regained 50 pounds of the lost weight and good health, and have been a well man ever since. Yours truly, GEORGE F. MORSE, LEOMINSTER, MASS., Oct. 27, 1902.

Artificial Ear for the Deaf.

"The deaf may now hear!" That is a promise to three million afflicted persons of America from Miles Reese Hutchison, a clever young Alabamian inventor who gave a convincing demonstration of a new auditory apparatus in New York March 13th. Children born deaf, dumb and blind listened to a piano and a phonograph, and heard the sound of their own voices for the first time in their dreary little lives. Mr. Hutchison was recently decorated by Queen Alexandra for his work in behalf of the deaf. The other week he demonstrated the efficiency of his new "eyeglass for the ear," before an audience including the Duke of Newcastle, and the management of several New York institutes devoted to the aid of the afflicted. The apparatus consists of an ear piece, a transmitter and a small battery all of which may be so arranged upon the person that no part need be visible except the ear piece. A movement is now on foot among charitable persons of New York to provide funds to supply the poor with the devices free of cost. —Collier's Weekly.

Save the Loved Ones!

Mrs. Mary A. Vliet, Newcastle, Colo., writes, "I believe Ballard's Horehound Syrup is superior to any other cough medicine, and will do all that is claimed for it, and it is so pleasant to take. My little girl wants to take it when she has no for it." Ballard's Horehound Syrup is the great cure for all pulmonary ailments. 25c, 50c and \$1.00. H.K. Woods Company.

HENS LAY ONION EGGS.

"Aunt" Eunice McReynolds, a well known colored woman, finds the produce of her henry so flavored this season with her onion patch as to be unable to use her hen's eggs at all. These hens had access at all seasons to "Aunt" Eunice's onion tops and hence the above conditions. People who are fond of onion steak need use but one or two of these eggs and the odor is there. It's remarkable, but the McReynolds' henry has doubtless given to the world a valuable scientific discovery.—Elk-ton Progress.

Robbed the Grave.

A startling incident is narrated by John Oliver of Philadelphia as follows: "I was in an awful condition. My skin was almost yellow, eyes sunken, tongue coated, pain continually in back and sides, no appetite, growing weaker day by day. Three physicians had given me up. Then I was advised to use Electric Bitters; to my great joy, the first bottle made a decided improvement. I continued their use for three weeks, and am now a well man. I know they robbed the grave of another victim." No one should fail to try them. Only 50 cents, guaranteed, at Woods & Co's drugstore.

A Great Sensation.

There was a big sensation in Leesville, Ind., when W. H. Brown, of that place, who was expected to die, had his life saved by Dr. King's New Discovery for Consumption. He writes, "I endured insufferable agonies from Asthma, but your New Discovery gave me immediate relief and soon thereafter effected a complete cure." Similar cures of Consumption, Pneumonia, Bronchitis and Grip are numerous. It's the peerless remedy for all throat and lung troubles. Price 50c and \$1. Guaranteed by Woods & Co., druggists. WHAT CAN WE DO?

Drink water and you get typhoid. Drink milk and you get tuberculosis. Drink whisky and get junjams. Eat white flour and get appendicitis. Eat soup and get Bright's disease. Eat beef and encourage apoplexy. Eat oysters and acquire toxemia. Eat meats of any kind and get indigestion or some kind of germ disease. Eat vegetables and weaken the system. Eat disinfectants and take on paresis. Smoke cigarettes and die early. Smoke cigars and secure a nice catarrh. Drink coffee and tea and obtain nervous prostration. Drink beer and have the dyspepsia. Drink wine and get the gout. In order to be entirely healthy one must eat nothing, smoke nothing, and even before breathing one should see that the air is properly sterilized.

A Sweet Breath

Is a never failing sign of a healthy stomach. When the breath is bad the stomach out of order. There is no remedy in the world equal to Kodol Dyspepsia Cure for curing indigestion, dyspepsia and all stomach disorders. Mrs. Mary S. Crick, of White Plains, Ky., writes: "I have been a dyspeptic for years—tried all kinds of remedies but continued to grow worse. By the use of Kodol I began to improve at once, and after taking a few bottles am fully restored in weight, health and strength and can eat whatever I like. Kodol digests what you eat and makes the stomach sweet." R.F. Haynes.

MEN ARE LIKE HOGS.

An exchange says: Men are just like hogs, however distasteful this may sound to the hogs. When a hog gets an ear of corn, every hog will trot along behind him, squeal and whine and beg for a bite, but just let the front hog get his head fast in a crack and every one will jump on him and tear him to pieces. Just so with men. As long as a man is prosperous and has plenty of money he can't keep friends off with a club. But the minute his wealth is gone, he is not only snubbed by his former friends, but they at once begin to do him all the harm possible. When a man starts up grade the world falls behind and pushes, but when he starts down the grade the world steps to one side and greases the track.

Those persons who get the genuine DeWitt's Witch Hazel Salve are never disappointed, because it cures.—R.F. Haynes.

A Thoughtful Man

M. M. Austin, of Winchester, Ind., knew what to do in the hour of need. His wife had such an unusual case of stomach and liver trouble, physicians could not help her. He thought of and tried Dr. King's New Life Pills and she got relief at once and was finally cured. Only 25c at Woods & Co's drugstore.

A Housekeeper's Notes.

Ants will not cross a chalk line. Salt will rub egg stains off of spoons. Whiting on a chamois skin polishes silver. A sponge dipped in turpentine renovates gilt frames. Scorch marks in linen may be removed with lemon juice and salt. Rub gently on the place and set in the sun. Equal parts of ammonia and turpentine will take paint out of clothing, even if it is hard and dry. If a little camphor is added to the water in which cut flowers are put, the period of their freshness will be considerably extended.

Will Hughes, of near Marion, was here Sunday.

Rev Hughes filled his regular appointment at Baker Sunday.

Clarence Grady was in Sturgis Sunday.

The families of H. L. Sullivan and E. L. Nunn paid a visit to Bella Mines Sunday evening.

Miss Alma Truitt visited in Weston last week.

Chess Truitt was in Sturgis Saturday.

Robt Grady is on the sick list.

There was a pleasant social at the home of Joe Davis Saturday night. Miss Edith, the accomplished daughter of the host, possesses rare tact in entertaining.

Mrs Jettie Nunn, of Blackford, is visiting her father.

W. C. Hamilton and daughter were in Sturgis Thursday.

Robert Grady, wife and child, had a thrilling experience in Union last week. They were driving near the river's brink, when suddenly the horse became frightened at a party of fishermen. The horse turned right and left and began kicking. The buggy was demolished and it is a wonder how the occupants saved their lives.

The grist mill here is out of running order again.

The smallpox scare is being revived. Doc Truitt is very ill and it is thought he has contracted the disease.

Luther and Wallace Clift were in the Repton section Sunday.

Oats have come up nicely, and a fair crop may be expected.

Matters are assuming a most favorable aspect at Bella Mines. By aid of the ten inch pump now in continuous operation, the mines will soon be cleared of water. The Grand Rivers syndicate holding an option on the property is apparently well pleased with the prospect. It is not improbable that by fall the mines will be run to their full capacity, with railroad outlet to the I. C.

HEBRON.

Here we are again.

Miss Lela Wilborn, of Ford's Ferry, was visiting in our community not long since: Miss Lela says of all flowers sweet Williams are the most lovely.

Capt. Bill Wilborn was in this country last week buying tie timber.

Rufus Terry came down from Marion Saturday with full intention of making the sun hotter by his rapid strokes on the farm; but to only look at the boy is to know that his mind is on feminine companionship; so long before set of sun he was seen going back to Marion to join the club.

Pierce, James & Corley will move their saw mill from this vicinity shortly.

Miss Maggie Moore, the popular school teacher of Siloam will be our teacher next fall.

The latest attraction of the season was the organization of Sunday school at Hebron Sunday under the sole management of Misses Lela Wilborn and Sadie Rankin. This evidently means (if it means anything) that these two young ladies are the alpha and omega, the great high priests and supreme authority. They hold office for life or during good behavior.

The musical at Foster Love's Saturday night would have put a quietus on Sousa's band.

It is a very pleasant task to drop a line or two to the Press once in a while, but the famous saying of Dryden that "He who lives to write must write to live," applies to me in no way. No matter how you turn it, if the clock did not warn me against it, if my own temperament did not stand a little in the way, I might say to you something very solemn on the subject of turnpikes, but I will not detain you longer.

BAKER.

Come out next Saturday to this place and express your opinion in regard to working the roads by taxation.

Bro Hughes filled his appointment at this place Sunday.

The cattle plague still continues; Clifton Kirk lost a cow recently.

Preaching at New Salem and at Tyner's Chapel 4th Saturday and Sunday in each month.

Will Hudson, the Salem officer, was among our people last week, hunting taxes; we will swear that it looks pretty hard to have our own county officials to pay taxes without having to import officials from another county.

Road working will now soon be in order. The most the road supervisors can do to our highways at present is to fill up the holes and ruts and make them passable until the spring rains are over.

The Golden Rule is a mighty good rule to go by, when rightly carried out, but in our day it is rarely carried out.

OLD JIM.

Old Jim comes to the front again with a large lump of ore.

Anthony Thomas is laid up with a mashed foot. This is the fourth time he has got hurt; he seems to be unlucky.

Clem and John wore a broad smile when they beheld the large lump of jack that was taken from Old Jim Wednesday. This was the largest lump of jack ever raised here. Estimated weight 2000 pounds. Oh my, it made that 12 horse power hoisting engine talk; she could only raise it about six feet at a time, when she would stop and would have to be speeded up for another trial.

Dick Mayes has five plows turning the soil. Dick is a hustler any way you take him.

R. H. Elder, of Going Springs, was at Old Jim Sunday. Rufus has not forgotten how to squirrel hunt yet, judging by the merry race he led the young people Sunday, which ended by him treeing a squirrel on the point of the bluff where he took his stand as of old. Come again Mr. Elder as a certain young lady says I like 'em.
